

# Jeb Plastics, Inc.

January 2013

## Plastic Bags

ISO 9001: 2000 Registered

### High-Quality Plastic Products and Accessories:

- Lay Flat and Gusseted Bags in stock and custom sizes
- Bags for Furniture & Mattresses
- Trash Liners and Static Control Products
- Made in the USA and 100% Recyclable

To Order Call: **1.800.556.BAGS (2247)**

## **Welcome to JEB Plastics!**

We offer a premium selection of plastic bags and products at competitive prices that are hard to beat. Browse our catalog of plastic bags made from only the highest quality raw material, all manufactured to meet the rigorous ISO 9001:2000 quality standards.

We offer consistent thickness, clarity, seals and durability. If you're looking for something and can't find it here, we also provide custom manufacturing and prompt service.

Call one of our friendly representatives today!

# Premium Quality Plastic Bags

## Low Density Polyethylene

Polyethylene is the material used in over half of all films today, and low density polyethylene (LDPE) is the source of most poly bags. All of our stock bags are manufactured with LDPE for it's great tensile strength, clarity, flexibility and water barrier properties. It is also resistant to most caustic compounds.

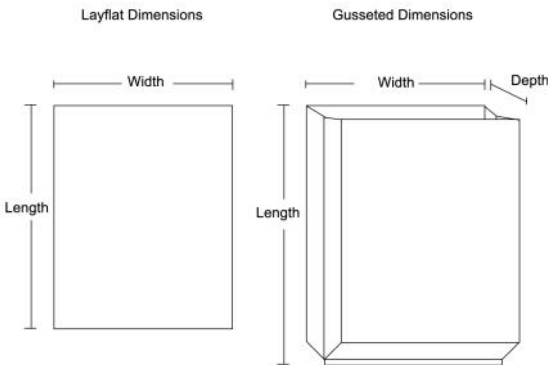

## Lay Flat Dimensions

For each flat bag, there are three dimensions:

1. Width across the opening of the bag,
2. Length from the opening, along the side to the base of the bag, and
3. Gauge, which is a measurement of the thickness of the bag expressed in mils. In this catalog, the thickness is listed at the top of each chart above the columns.

## Gusseted Dimensions

The width measures across the opening of the bag. The depth is the fully extended gusset. The length runs from the opening to the bottom, and the gauge is the thickness.

## Stock Liners

### Fitting a Round Container

1. For circumference of the bag, multiply the diameter of the container by 3.14. Divide by 2 to get the flat width. Add 1 in for a looser fit.
2. Add 1/2 of the diameter to the height of the container. Add 5 in. to this total for overhang. This is the total length of the bag needed.
3. If tying bag, add 1/2 the diameter to the bag length determined by step #2.

### Fitting a Square or Rectangular Container

1. Add the width and length of the sides. Add 2 in. for a looser fit. This total equals the flat width of the bag needed.
2. Add 1/2 of the shortest side to the height of the container. Add 5 in. to this value for overhang. This equals the length of the bag.
3. If tying bag, rather than lining a box, add 1/2 length of the shortest side to the bag length determined by step #2.

## Octene Linear Low Density Liners

Produced from Octene Linear Low Density (LLDPE) material, the highest grade of LLDPE available for liners. This premium raw material yields a vastly stronger product.

**Light:** 0.48 mils

**Medium:** 0.58 mils

**Heavy:** 0.78 mils

**X-Heavy:** 0.98 mils

## Octene Linear Low Density Liners

W x D x L	Gusseted Equivalent	Weights Available
13 x 14 x 17	13 x 14 x 17	Light
12 x 8 x 21	12 x 8 x 21	Light

43 x 47	23 x 20 x 47	X-Heavy

## High Density Polyethylene Trash Bags

High density bags are made from a thinner gauge material to lower bag and freight costs and reduce storage requirements.

W x D x L	Weights Available	Gallon Capacity
24 x 24	Light	
24 x 33	Light	
30 x 37	Medium, Heavy	
33 x 40	Heavy	
40 x 48	Heavy, X-Heavy	
36 x 60	X-Heavy	

To Order Call: 1.800.556.BAGS (2247)

## Low Density Liners and Compactor Bags

Ideal for rigorous applications, these bags are perfect when nothing else stands up. Constructed from heavy gauge low density plastic, these liners resist breakage and puncturing under serious demands.
